Explore and learn – group study trip to Lebanon 15th – 22th September 2018. Reported by Veera Nieminen and Sirkku Kivistö, Helsinki Finland

The main purpose of the trip was to explore the Palestinian community in Lebanon and to meet the sponsored children and elderly, projects coordinated by Finnish Psychologists for Social Responsibility FiPSR and Finnish-Arab Friendship Society FAFS. Also some project management issues were on the agenda: the collection of evaluation data concerning the two years' projects by FiPSR and FAFS, and budget match with the financial needs of the latter part of the year 2018.

The Finnish delegation consisted of 12 people, who were sponsors and/or interested in Palestinian issues in Lebanon. The delegation stayed in the Hotel Mayflower Beirut and the program was facilitated in cooperation with Beit Atfal Assumoud.

The study tour group members – thanks to the organizers

Hannu Ahonen, Sirpa Ahonen, Aulikki Ansamaa, Noor Assad, Alva Grünthal, Anna Hirvonen (journalist), Liisa Kaikula, Sirkku Kivistö, Paula Lähteenaho, Veera Nieminen, Reijo Rinne and Juha Tapio.

Sirkku Kivistö, Aulikki Ansamaa and Veera Nieminen were trip leaders and Noor Assad interpreter.

The group offer sincerest thanks to Director, Mr. Kassem Aina, mental health program coordinator, Ms. Liliane Younes, social worker Hanane Dabdoub, social workers of Shatila, Director of El Buss FGC Khawla Khalaff, Director of Baalbeck center, Ms. Aziza Shahadeh, social workers in Bourj el-Barajneh for all efforts which made our study trip most fruitful and unforgettable.

The main outputs of the trip

Learning about the Palestinians' situation, history and life in the camps

The delegation attended in the Sabra and Shatila commemoration week's program "36 years painful memories". There were also attendants from other countries such as Italy, Britain, Switzerland, Norway, Malaysia and Japan. The program consisted of visits in the Palestinian camps (Shatila, Mar Elias, Burj al-Barajneh in Beirut, Nahr el-Bared in the north and Bourj el-Shemali, Rashidied and El-Buss in the south) where there were different activities, such as speeches, exploring BAS centers and clinics, and walking trips. There were also trips to a Syrian Refugee Camp and Kham Detention Center near Israeli border. In dinner occasions there were opportunities to discuss with other delegations. The Finnish delegation had daily meetings for sharing and reflecting their experiences.

Learning about work in Family Guidance Centers and Social Work in the Camps

The Finnish delegation also had their own study meetings in FGC Beirut and in BAS headquarters Beirut. Ms. Liliane Younes gave an informative introduction about work in Family Guidance Centers. We discussed also how to collect some evaluation sample data directly from the children in some Family Guidance Center. Earlier the evaluations are done by the parents and/or by FGC staff. In BAS office Dr. Rania Mansour and sponsorship coordinator, Ms. Fatima Khaizaran talked about sponsorship program as a part of social work. The program Family Happiness has intensified cooperation in child protection with responsible organization (UPEL) and juvenile courts. Also, it was stated that sponsorship program holds a structure which allows a keen contact with social workers and families. Often this continuous cooperation prevents the worsening of problems.

Meetings with sponsored children and elderly

One of the main goals of the trip was to make possible for sponsors to meet the sponsored children and elderly. In total there were 18 meetings with sponsored children, 2 meetings with sponsored kindergarten groups and 4 meetings with the elderly in different camps. According to the daily conversations and the feedback these meetings were considered as of the most touching and memorable moments on the trip.

Gathering information in order to increase consciousness on Palestinian issues in Lebanon

The Finnish delegation gathered information on what they experienced on the trip. Many of the attendants also documented the trip by taking pictures or videos. Journalist Hanna Hirvonen interviewed the locals actively and is about to offer her articles for several publications. She had excellent help from Ms. Noor Assad who translated in the meetings between Arabic-Finnish. Also other attendants were planning to write and publish stories in magazines and in social media.

Experiencing the history of Beirut and civil war in Lebanon

As a leisure activity the Finnish delegation visited Beit Beirut by kind permission of Judge Ziad governor of Beirut, together with staff members from Finnish Institute in Middle East. The visitors were guided by architect, Ms. Mona el Hallak. Ms. Hallak succeeded in lobbying for the preservation of the "Barakat Building" between 1994 and 2009. The building currently known as Beit Beirut will be turned into a museum and urban cultural center celebrating the history of Beirut and namely the civil war.

The delegation also enjoyed numerous traditional Palestinian and Lebanese meals during the week.

Project evaluation and funding

Project coordinator Ms. Sirkku Kivistö and assistant coordinator Ms. Veera Nieminen had a meeting in the BAS financial department to discuss about the situation with the project funding. The financial reports concerning January-September were ready for the audit process, and sent thereafter to Finland.

Ms. Sirkku Kivistö, Ms. Veera Nieminen and Ms. Alva Grünthal had a meeting in FGC Beirut with Ms. Liliane Younes. Veera Nieminen introduced the project report 2017-18 of the sponsored children with multiple special needs, based on 30 progress reports of supported children. The situation in different FGC's and the evaluation of the two years' project period which is running out at the end of the year were discussed. Coordinators decided to interview Director Kassem Aina about what kind of direction is needed for mental health program in Family Guidance Centers. Unfortunately, there was no possibility for the interview during the visit.

Ms. Sirkku Kivistö, Ms. Veera Nieminen and Ms. Alva Grünthal visited with social worker Hanan Dabdoub (FGC Beirut) the special school Tanmia al Fikria, where several MSN children study at the moment.

Feedback survey (n=11) on the return way in Istanbul airport 22.9.2018

The attendants gave feedback about the trip on our way home. According to feedback survey, the trip was mainly experienced as positive and enlightening experience. All of the attendants reported that the trip was successful as delivering information about the sponsored childrens' situation. 9 respondents reported that they received information about the Palestinians' situation in Lebanon well or very well. Also the study aspects of the trip (Beit Atfal Assumouds activities and development cooperation, sponsorship program as a part of social work and MSN project as a part of Family Guidance Centers' work) gathered mainly positive feedback.
